Precision Millwrights

Time is money was never so true as it is in a production environment.

You can't afford excess downtime. From machinery maintenance to complete plant moves, count on our trained professionals to minimize your downtime.

Give us a call to discuss your next project, from repairing a single machine to installing a complete indexing line, and see how our thorough planning, expert personnel, and state-of-the-art equipment can save you time and money.

Put our qualified millwrights to work for you:

- New and used machinery installations
- Machinery repairs and maintenance
- Machinery dismantling
- Machinery moving and rigging
- Plant relocations
- Precision laser alignment

Get absolute precision for your machinery.

All machinery will be expertly placed based on a custom tailored solution using rigging, hoisting devices, or our hydraulic lift-trucks and assembled to meet its manufacturer's blueprints and drawings.

To ensure the utmost in accuracy, laser alignment tools will be used when necessary, accurate to up to 0.0001" tolerances.
